

National Library for Public Health e-Newsletter

June 2009

Welcome to the June edition of the [National Library for Public Health](#) newsletter.

The purpose of this newsletter is to highlight new additions to the library and any special pieces of work we have done.

We hope you find this useful and would welcome any comments. If you would like to be added or removed from our mailing list, please email library@nepho.org.uk. Please note, due to the volume of emails received for subscriptions, you **will not** receive a confirmation.

Drugs misuse treatment in offender populations

From the 8th June our first Annual Evidence Update on Drugs Misuse will be available. The theme for this first update is drugs misuse treatment in offender populations. We have teamed up with experts from the Addictions Centre based at the Institute of Psychiatry, Kings College London to evaluate the evidence and put it into context. The AEU runs in conjunction with the Home Office Drugs Week.

Faculty of Public Health annual conference

We will have a stand at the Faculty of Public Health annual conference in Scarborough from 16-18 June. Please stop by to see us to learn more about the library and give us your feedback!

Consultations

Consultations on a number of public health topics are currently being run. Further details can be found via the links below.

- [Alcohol-use disorders \(prevention\)](#) until 17th June
- [How alcohol is sold and supplied](#) until 5th August
- [Prevention of cardiovascular disease](#) until 10th June
- [Prevention of type 2 diabetes - preventing pre-diabetes](#) until 18th June

Events

For a list of new and upcoming events, please see the [Events section below](#).

New additions

We have highlighted items brand new to the whole of the National Libraries for Health

The library has been developed to provide high quality evidence e-based information on all aspects of public health.

It is designed for those working in the field of public health by providing a single source of access to web based evidence on public health. It is being developed as part of the Department of Health Information and Intelligence Strategy by the North East Public Health Observatory. It replaces the Public Health Electronic Library (PHeL).

The National Library for Public Health does not contain patient information on individual medical conditions.

and key items for topics. If you are interested in a full list of items, please visit the [May 2009](#) additions page, otherwise select a topic below for a selection of items. Please note that these links may not work in some email clients.

Accidents & injuries	Dental health	Offender & prison health
Alcohol	Diabetes	Older people
Cancer	Diet & nutrition	Physical activity
Cardiovascular disease	General	Sexual health
Children & young people	Health inequalities	Substance Misuse
Commissioning	Mental health	Tobacco
Communicable diseases	Obesity	Women's health
